

SBITA

Subscription-Based IT Agreements allow a government entity to subscribe to an IT service on an ongoing basis.

SBITA allows you to pay as you go by subscribing to an IT solution from AsystYOU Technology on a recurring basis. You control the use of the IT solution while we provide you the necessary solution and support for the duration of the agreement.

Benefits of SBITA

01 Reduce Upfront Expense

02 Up-to-date Technology

03 Improved Security

As IT solutions age they become less efficient and less secure. This makes that IT, and your business, more susceptible to attack. SBITA provides you the most up-to-date IT solution, improving your efficiency while reducing your exposure to security threats.
